

People, Process, Technology - The Three Elements for a Successful Organizational Transformation

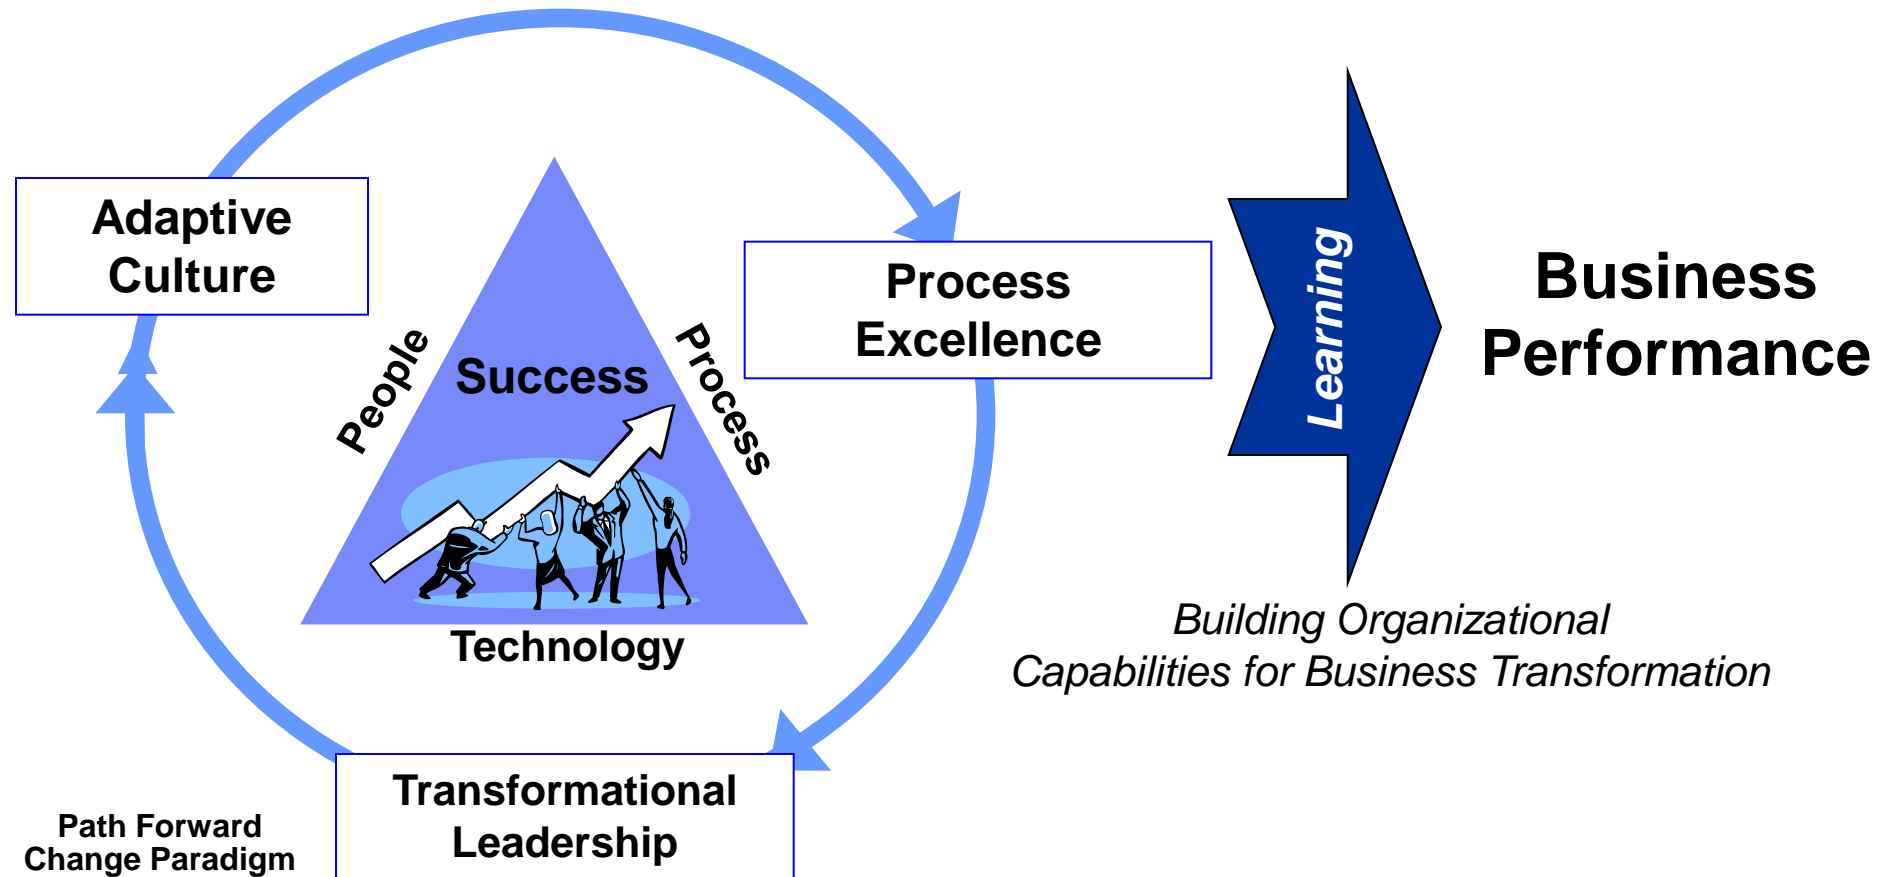

SEMS Webinar – Part 1 of the Mini-series on Transformational Change

March 2, 2011

S. Ramakrishnan, M. Testani

The Path Forward Approach to Business Transformation

Innovation and continuous improvement enabled through process excellence and high performing organization culture

Most of the critical challenges to successful change involve people, process-technology and leadership

Major Change Challenges

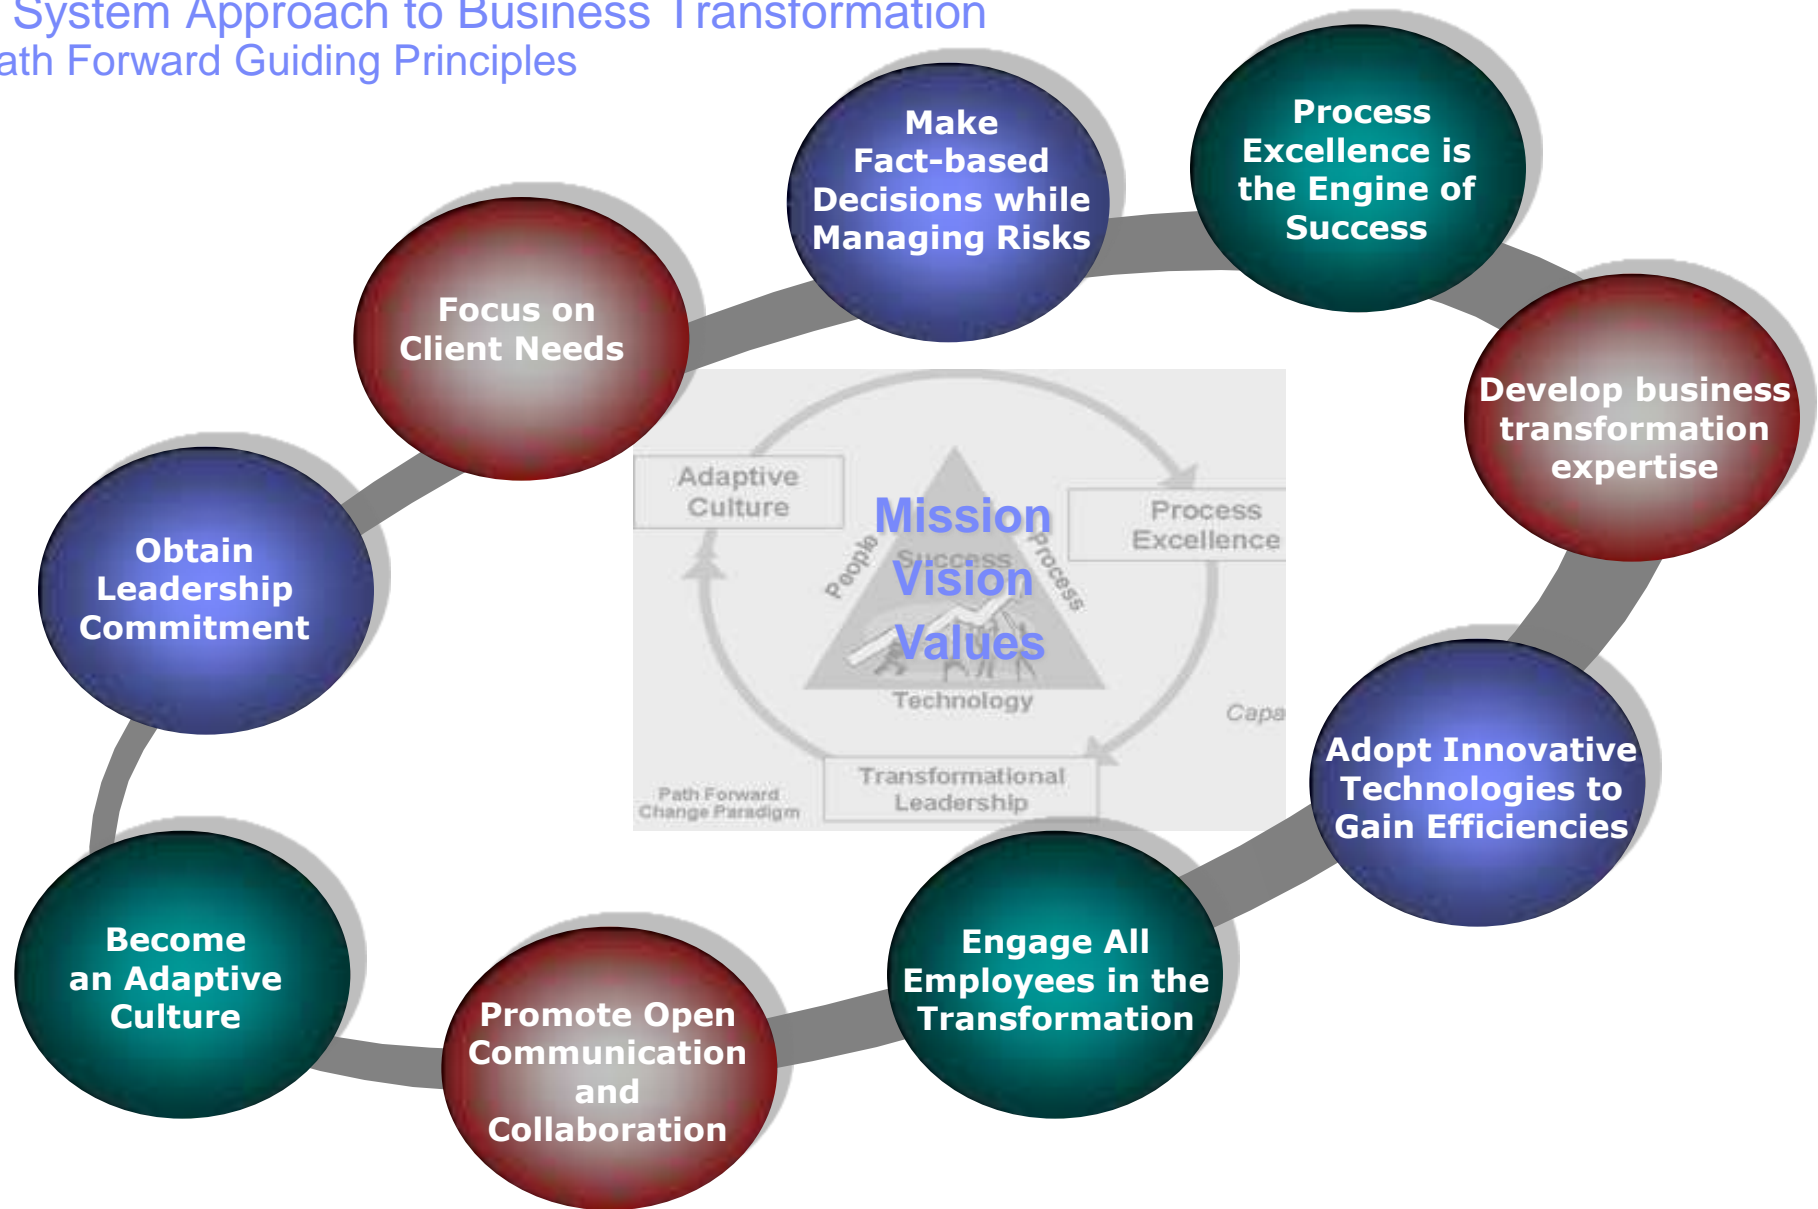

Points to the lack of explicit focus on Organizational Culture

Source: Making Change Work Study: Continuing The Enterprise of The Future Conversation from the IBM Global CEO Study, 2008 (n=1,532)

A System Approach to Business Transformation

Path Forward Guiding Principles

Approach to a Successful Change Initiative*

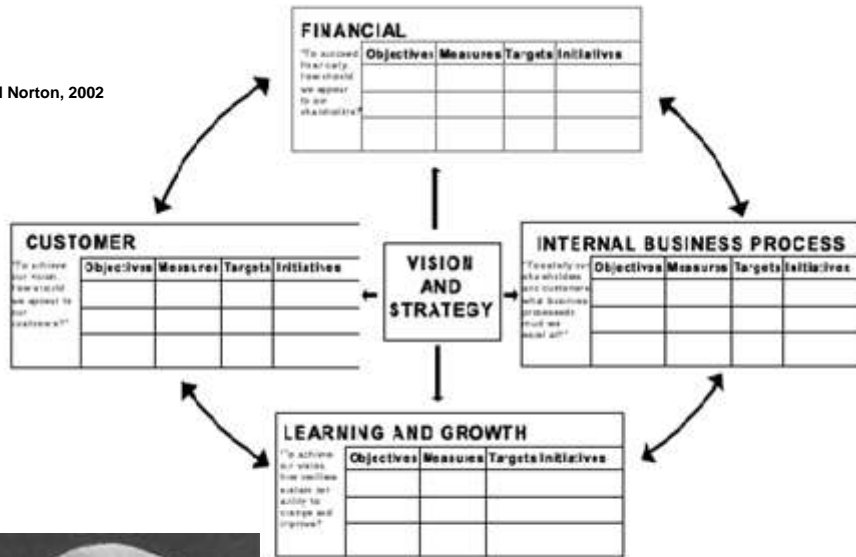

OCI® - Organizational Culture Inventory
is a proprietary of Human Synergistics Intl.

*Reference: Adapted form Dr . Marvin Washington

Aligning the Organization to Achieve the Vision

Kaplan and Norton, 2002

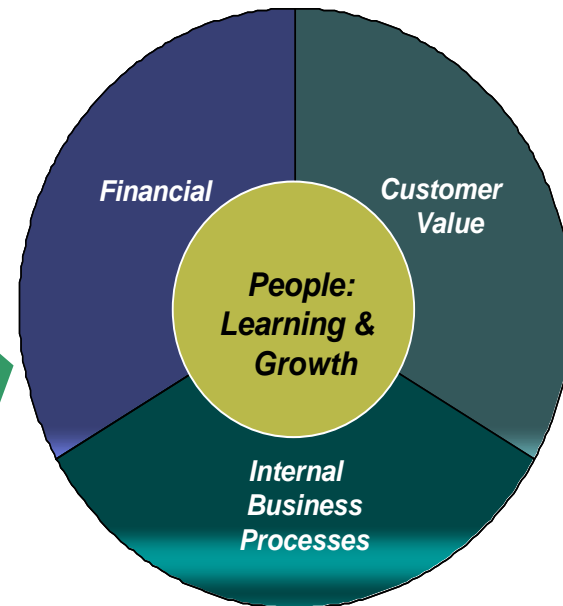

The Path Forward approach works with the senior leadership team to implement a 'People-centric' Balanced Scorecard

Thomas J Watson (1947)

"Teach your associates to teach themselves and in that way you will strengthen the entire organization"

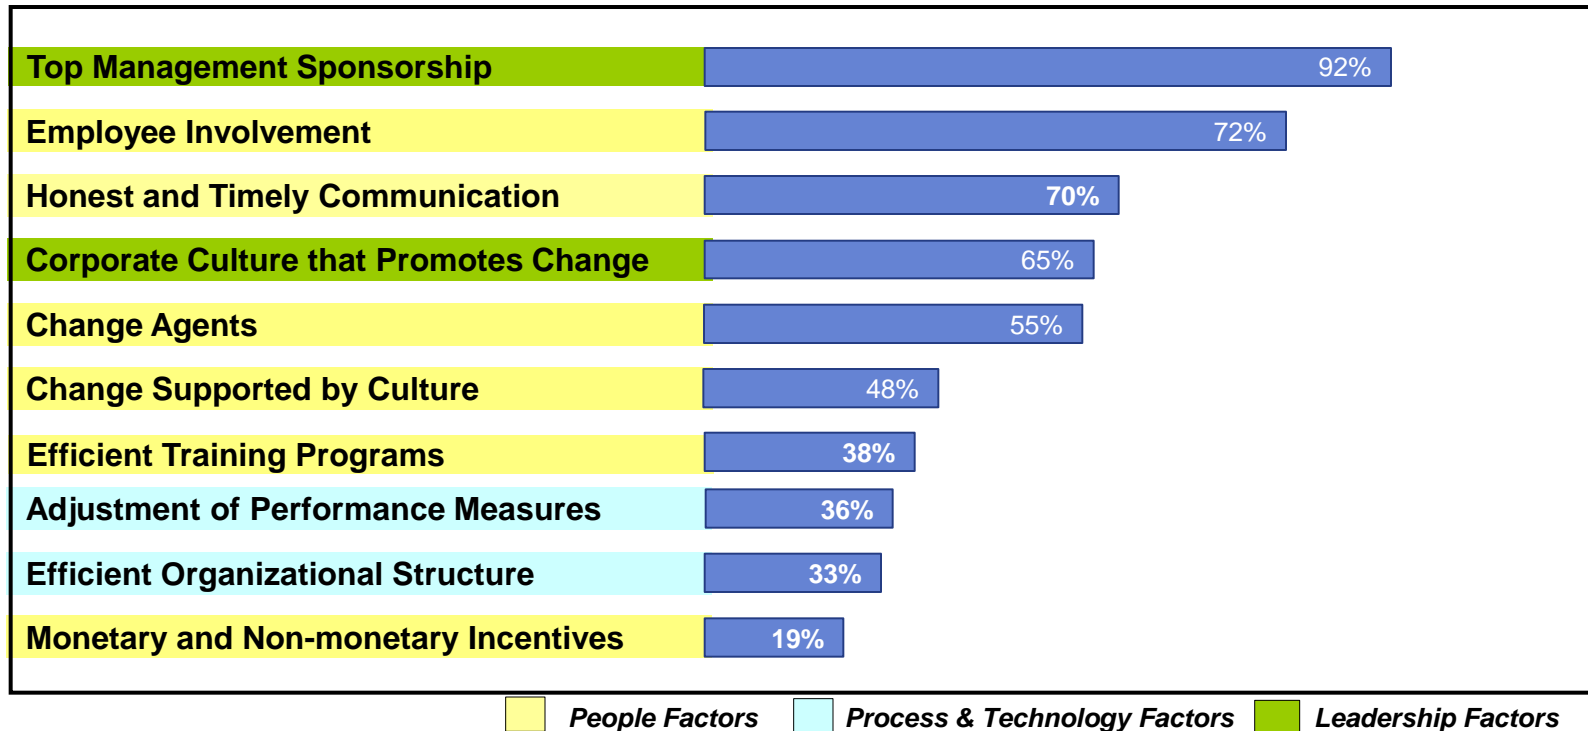

Path Forward Change Paradigm

Integrates People, Process and Technology

Key to Successful Change Initiatives

Pre-requisites for Successful Change:

- Transformational Leadership
- Employee Engagement
- Direct, Open, Sensitive Communication

Start with Leadership Commitment to begin looking at the culture and process

Source: *Making Change Work Study: Continuing The Enterprise of The Future Conversation from the IBM Global CEO Study, 2008 (n=1,532)*

Available at : <http://www-935.ibm.com/services/us/gbs/bus/pdf/gbe03100-usen-03-making-change-work.pdf>; page 13

What is Culture and Why is it Relevant?

- **Edgar Schein** model of Culture:

- What you can see, hear and observe

- What is important to the organization

- What does it take to 'fit in'

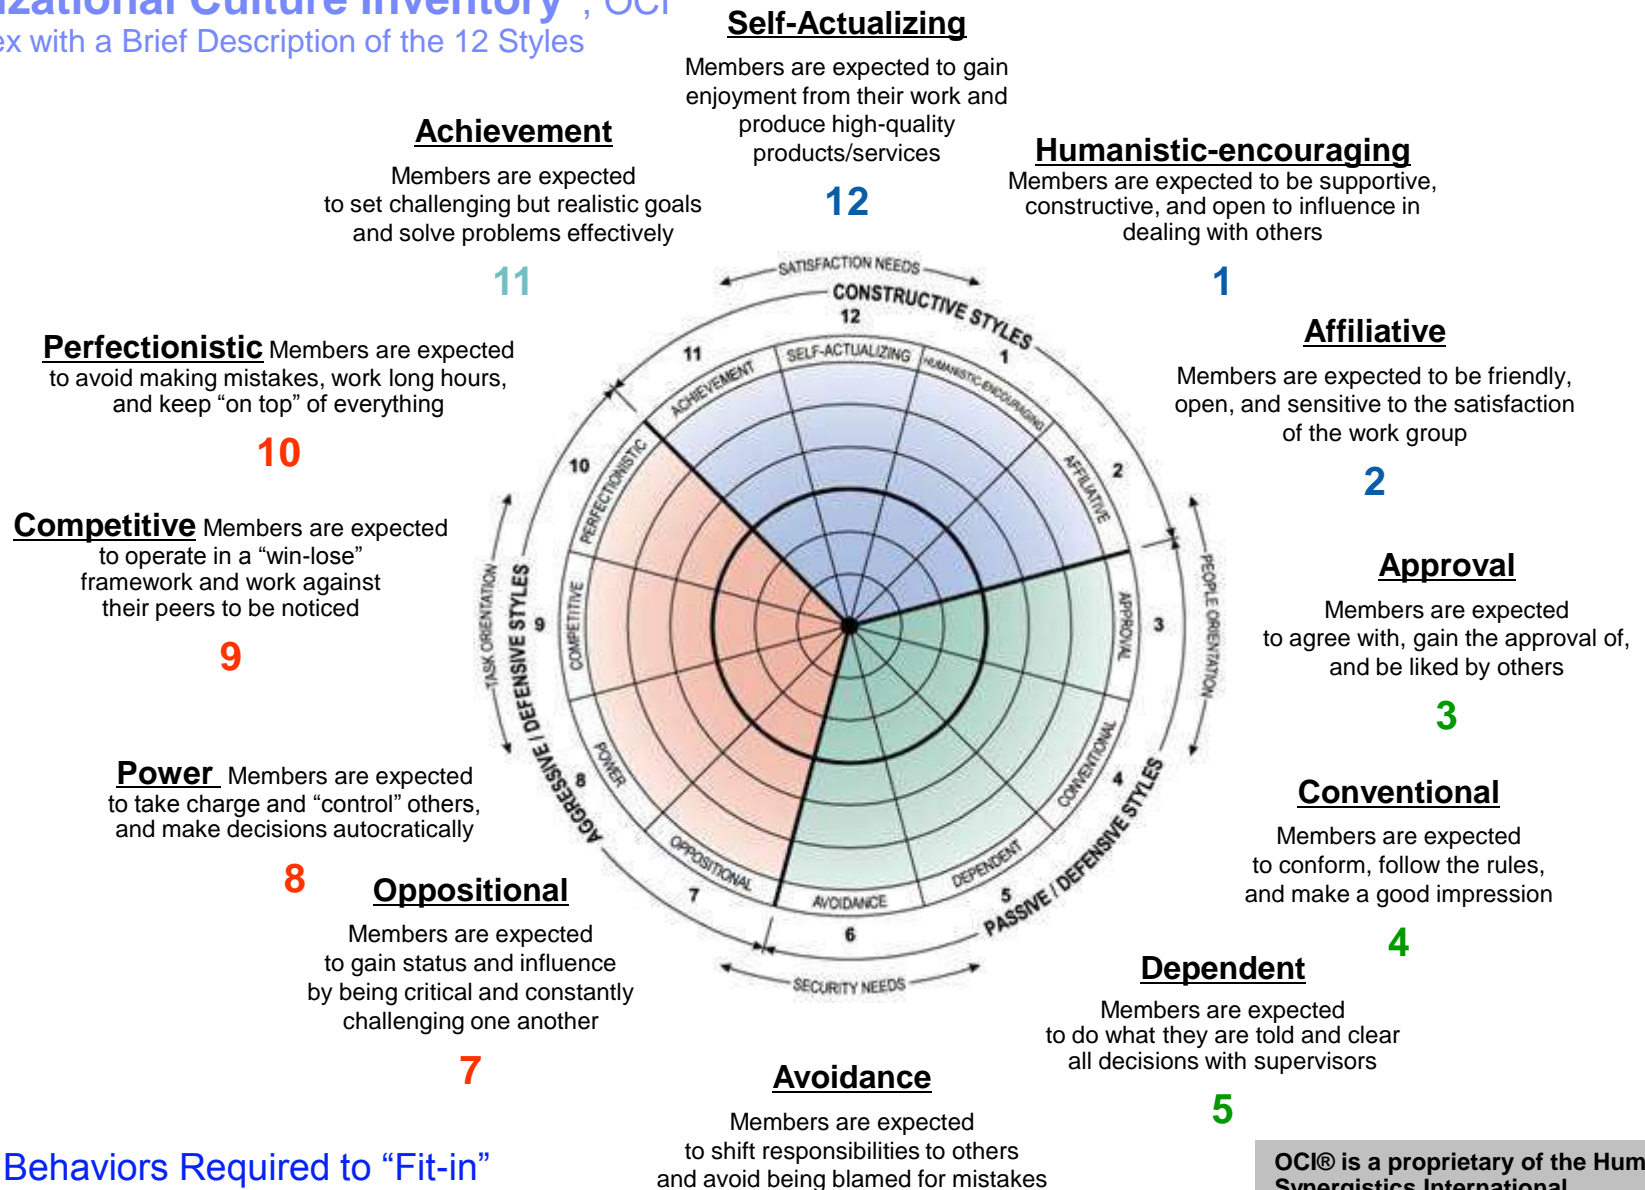

Organizational Culture and Leadership: E. Schein, Jossey-Bass, 4 ed., (2010)

- **Dr. Robert Cooke:** Organizational culture—the shared beliefs and values guiding the thinking and behavioral styles of its members
 - Organizational behaviors are classified into 3 categories:
 1. Constructive behaviors
 2. Passive/Defensive behaviors
 3. Aggressive/Defensive behaviors
 - These qualitative behaviors can be measured & quantified to help evaluate and change an organizational culture

Robert Cooke's work can be found at Human Synergistics International's website
<http://www.humansynergistics.com/news/ResearchandPublications.aspx>

Organizational Culture Inventory®, OCI

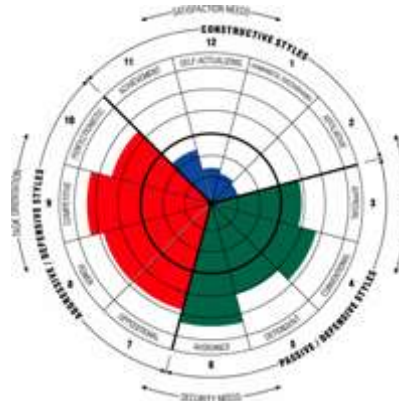

Circumplex with a Brief Description of the 12 Styles

Styles of Behaviors Required to "Fit-in"

Culture has a significant impact on an organization's long-term economic performance:

Results from an 11 year study, contrasting cultures of more than 200 companies, shows organizations with Adaptive cultures consistently produced superior business results.*

Unadaptive Culture

Adaptive Culture

Revenues	➡	166%	vs.	682%
Work Force	➡	36%	vs.	282%
Stock Price	➡	74%	vs.	901%
Net Income	➡	1%	vs.	756%

Living (Open) Systems & Interactions between System Levels

Seven Levels of Living (Open) Systems:

1. **Cell**- The basic unit of life
2. **Organ**- The organic system within a body
3. **Organism**- Single organisms; such as humans, animals, fish and birds
4. **Group**- Teams, departments, families, and similar bodies composed of members
5. **Organization**- Firm, company, neighborhood, community, city and other private and public organizations
6. **Society**- States, provinces, countries, nations, regions within countries
7. **Supranatural system**- Global systems, continents, world regions, Earth

Organizational change involves Level 3, 4 & 5

L. Tracy, The Living Organization: systems of behavior. Praeger, New York, NY. (1989)

J. G. Miller, Living Systems. McGraw Hill, New York, NY. (1978)

Haines, S., Systems Thinking Research Rediscovered, Available at <http://journals.iss.org/index.php/proceedings54th/article/viewFile/1366/480> (2005)

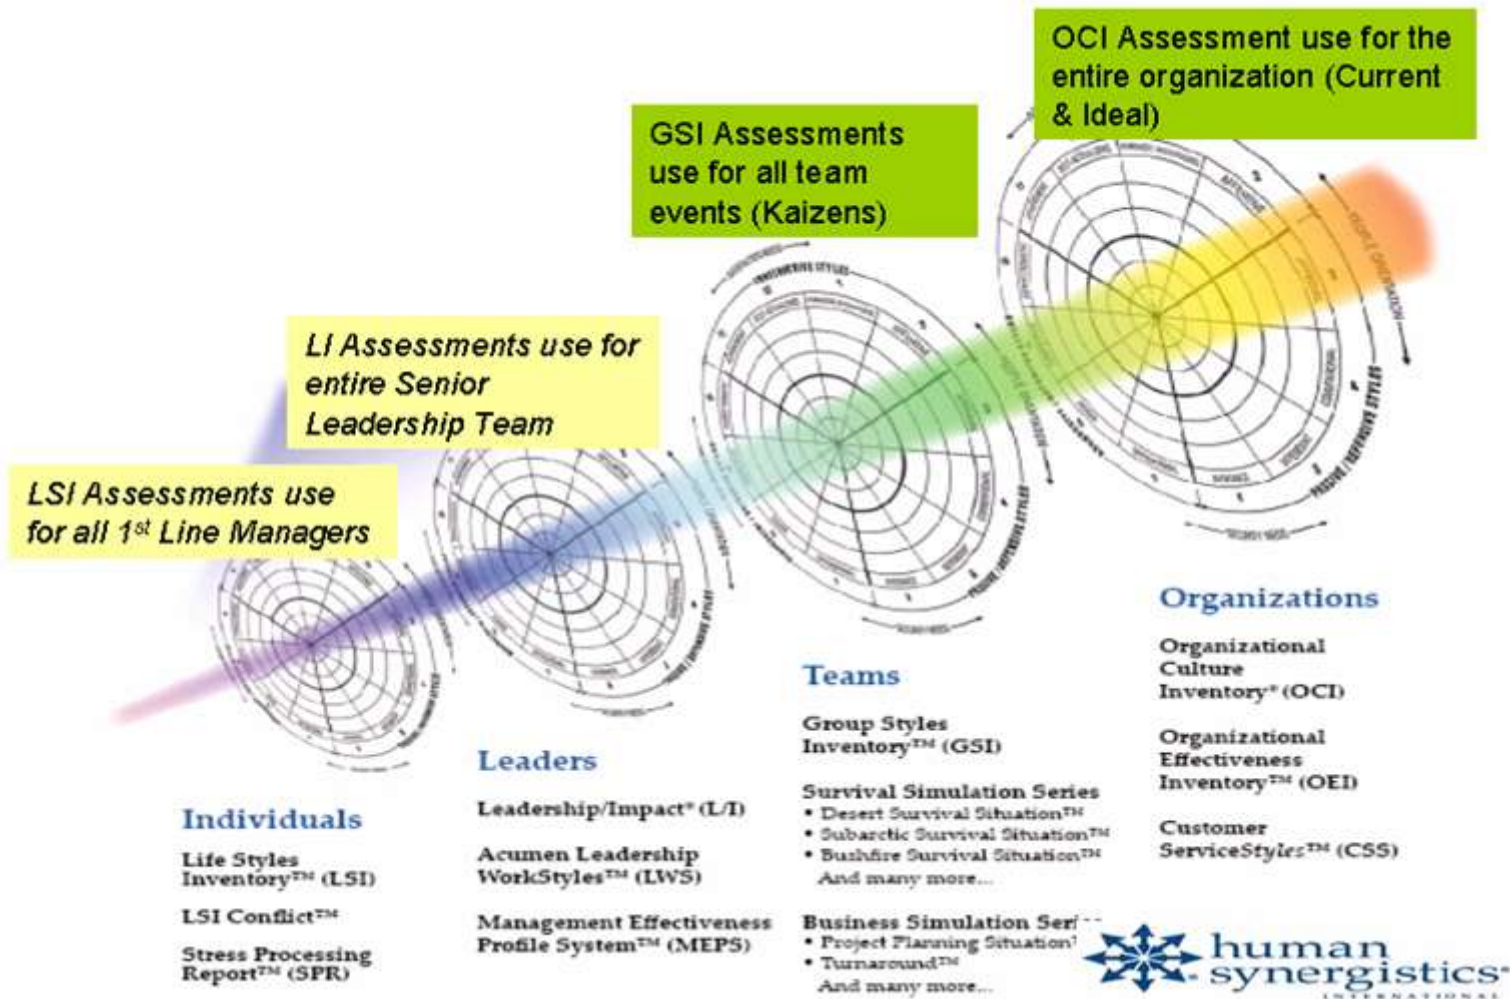

Focus on the interactions at these levels are key for a successful Path Forward transformation initiative

Note: Systems Thinking is required for Open Systems, (Vs. the Analytic Thinking that is commonly used for Closed Systems)

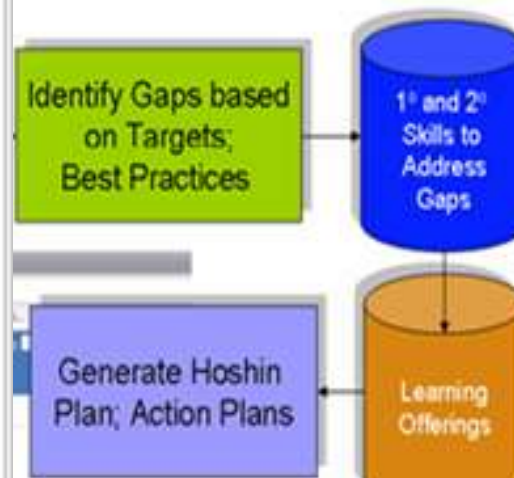

Begin by Understanding the Culture – Readiness for Change

A Systems Approach

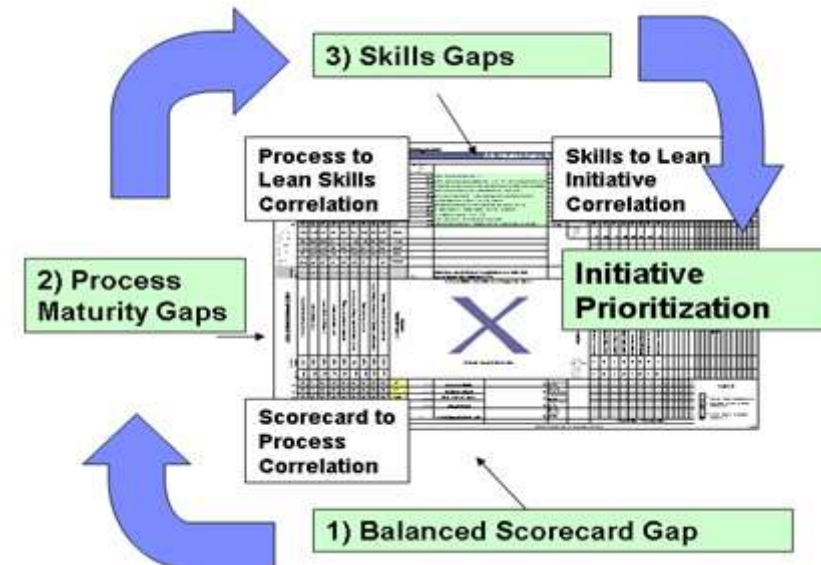

LSI®, LI®, GSI® and OCI® are proprietary of Human Synergistics International

Process and Technology Maturity - Readiness for Change

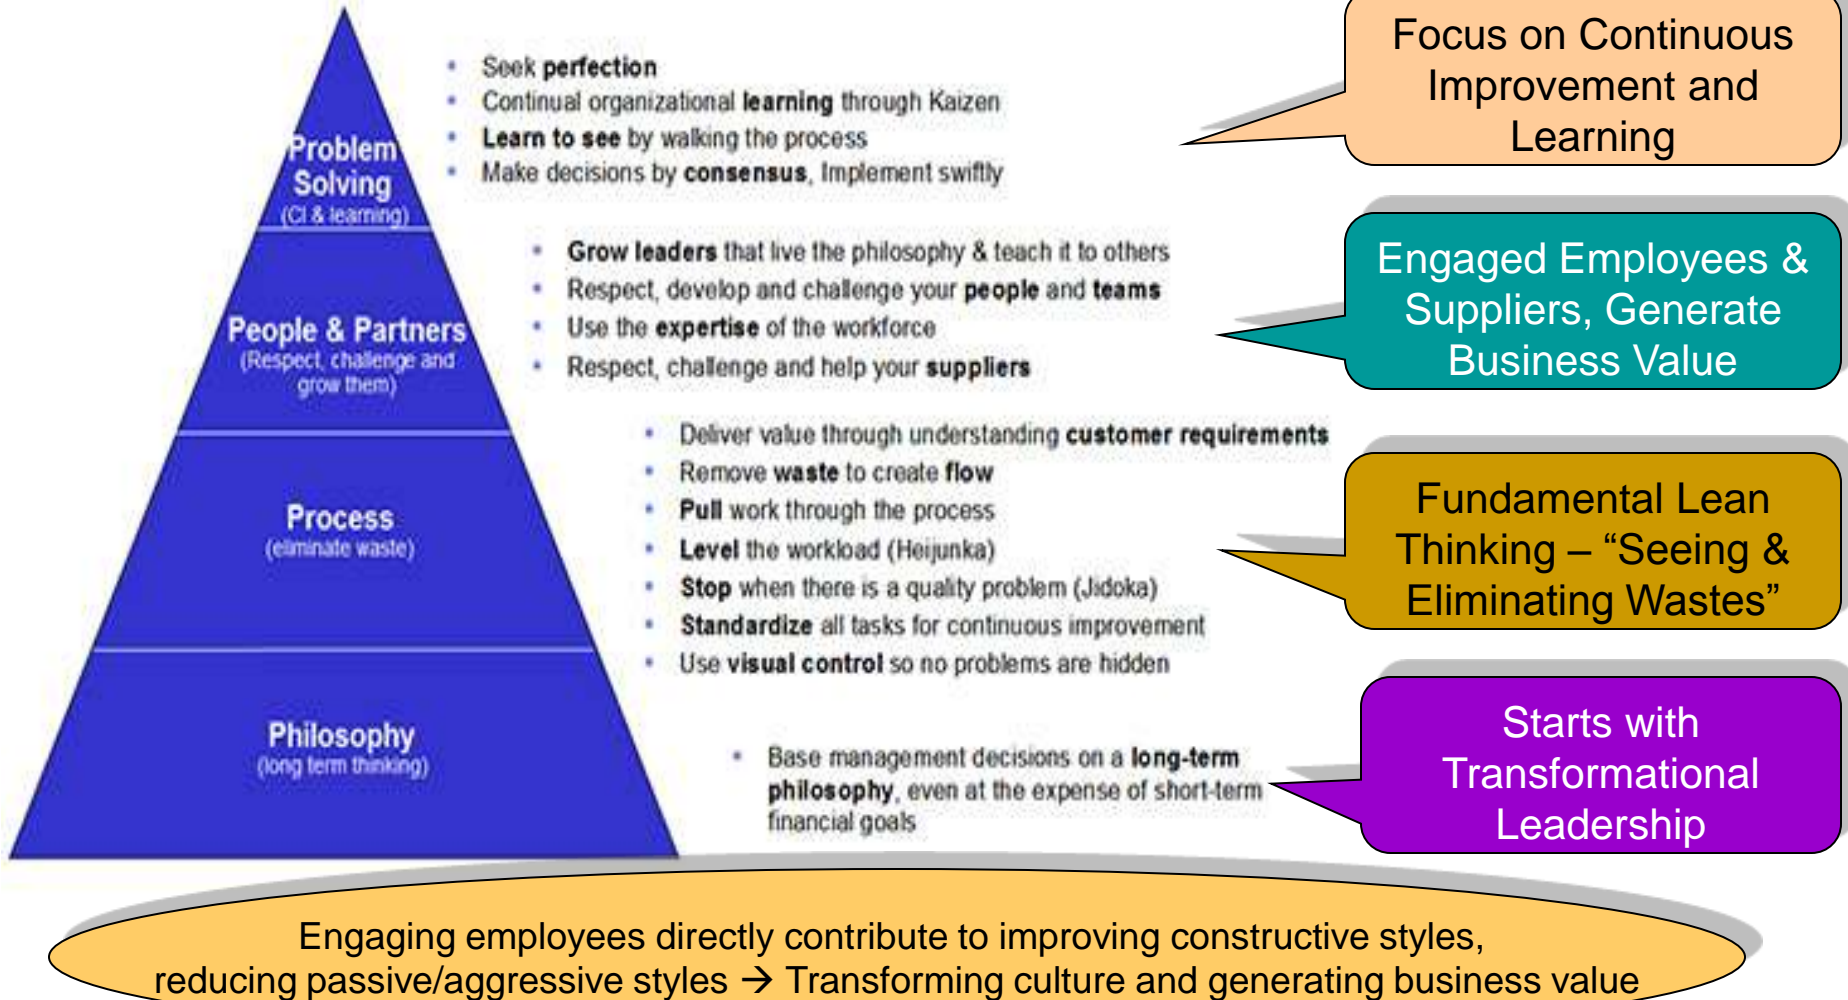

Process and Technology maturity is conducted in conjunction with the OCI® to understand the strengths, weaknesses and skill levels of the organization

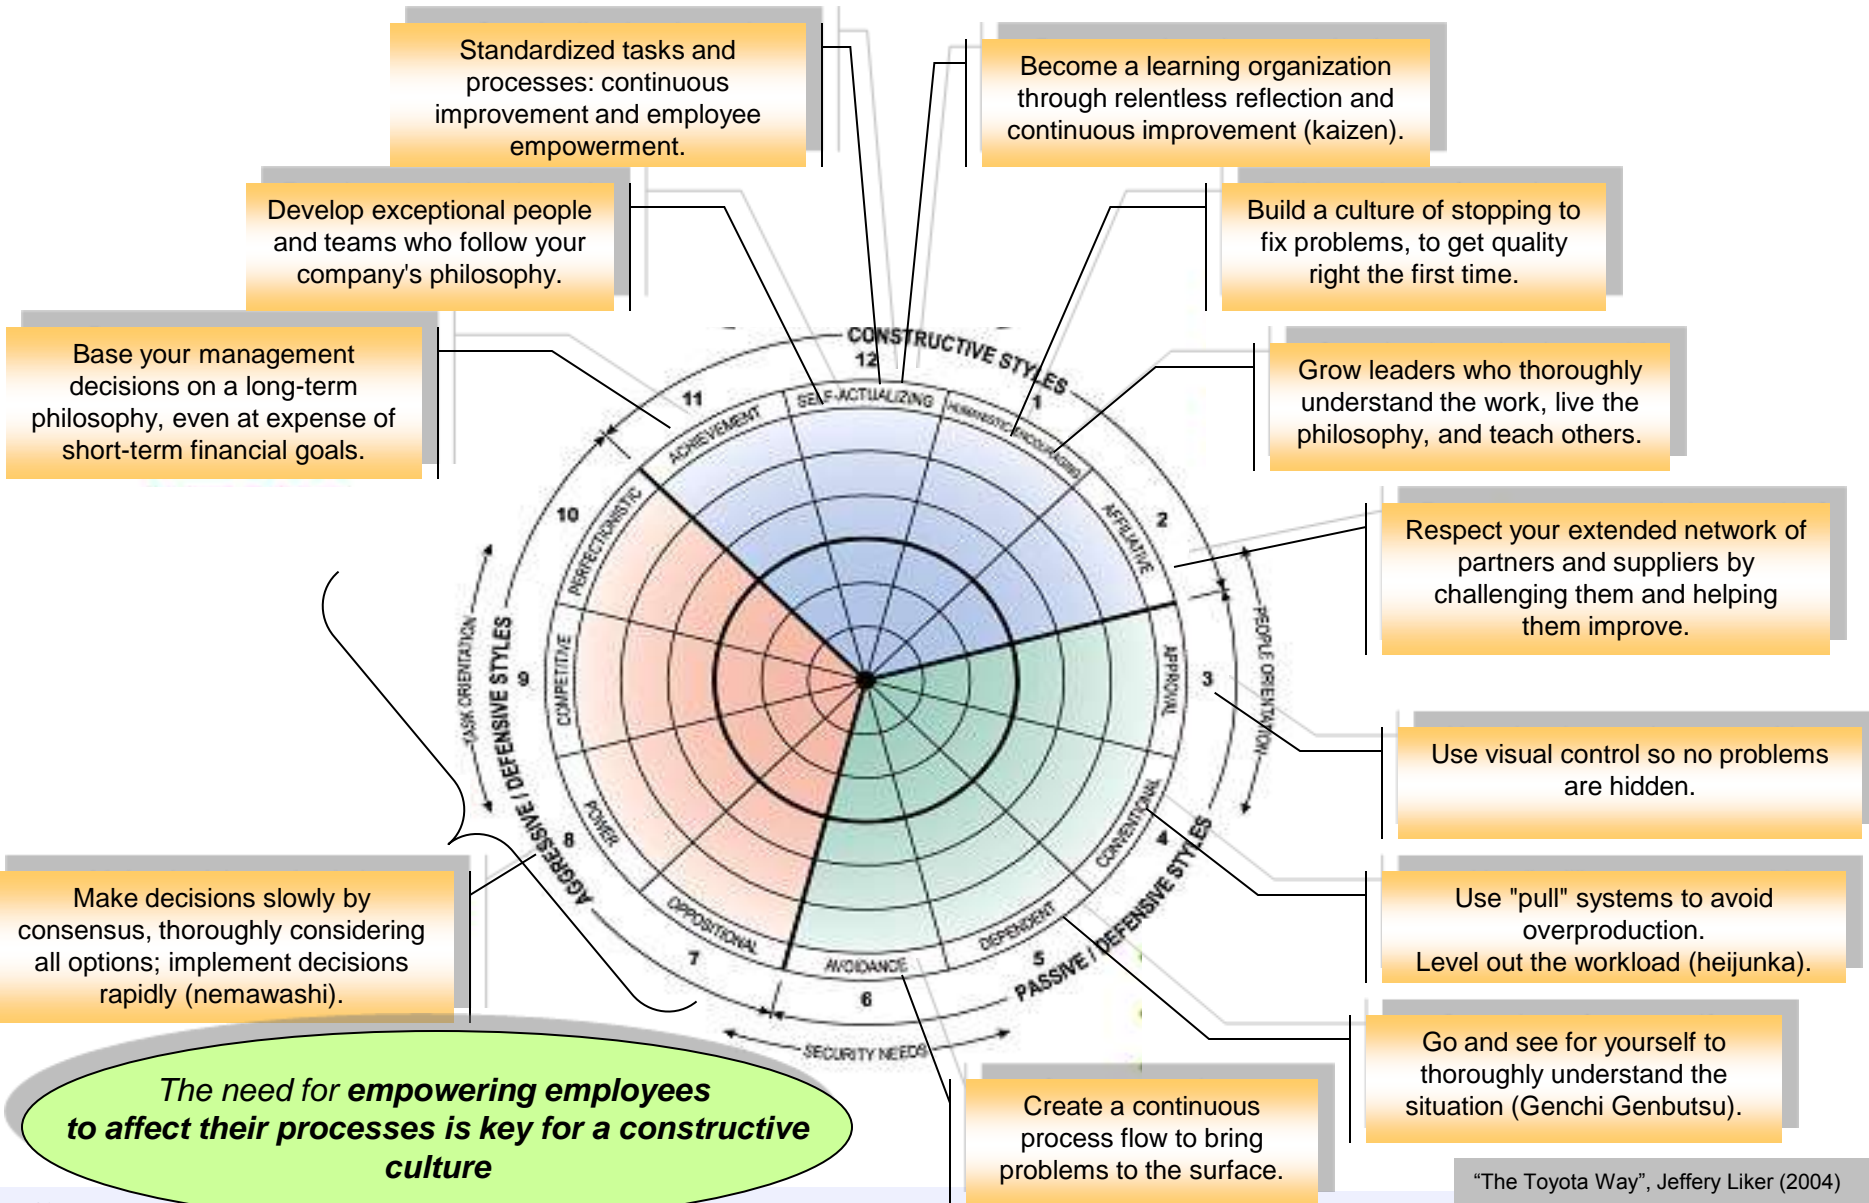

Engaging People to Transform Processes Critical to Business Transformation

Integrating to the “4 P” model of the Toyota Way

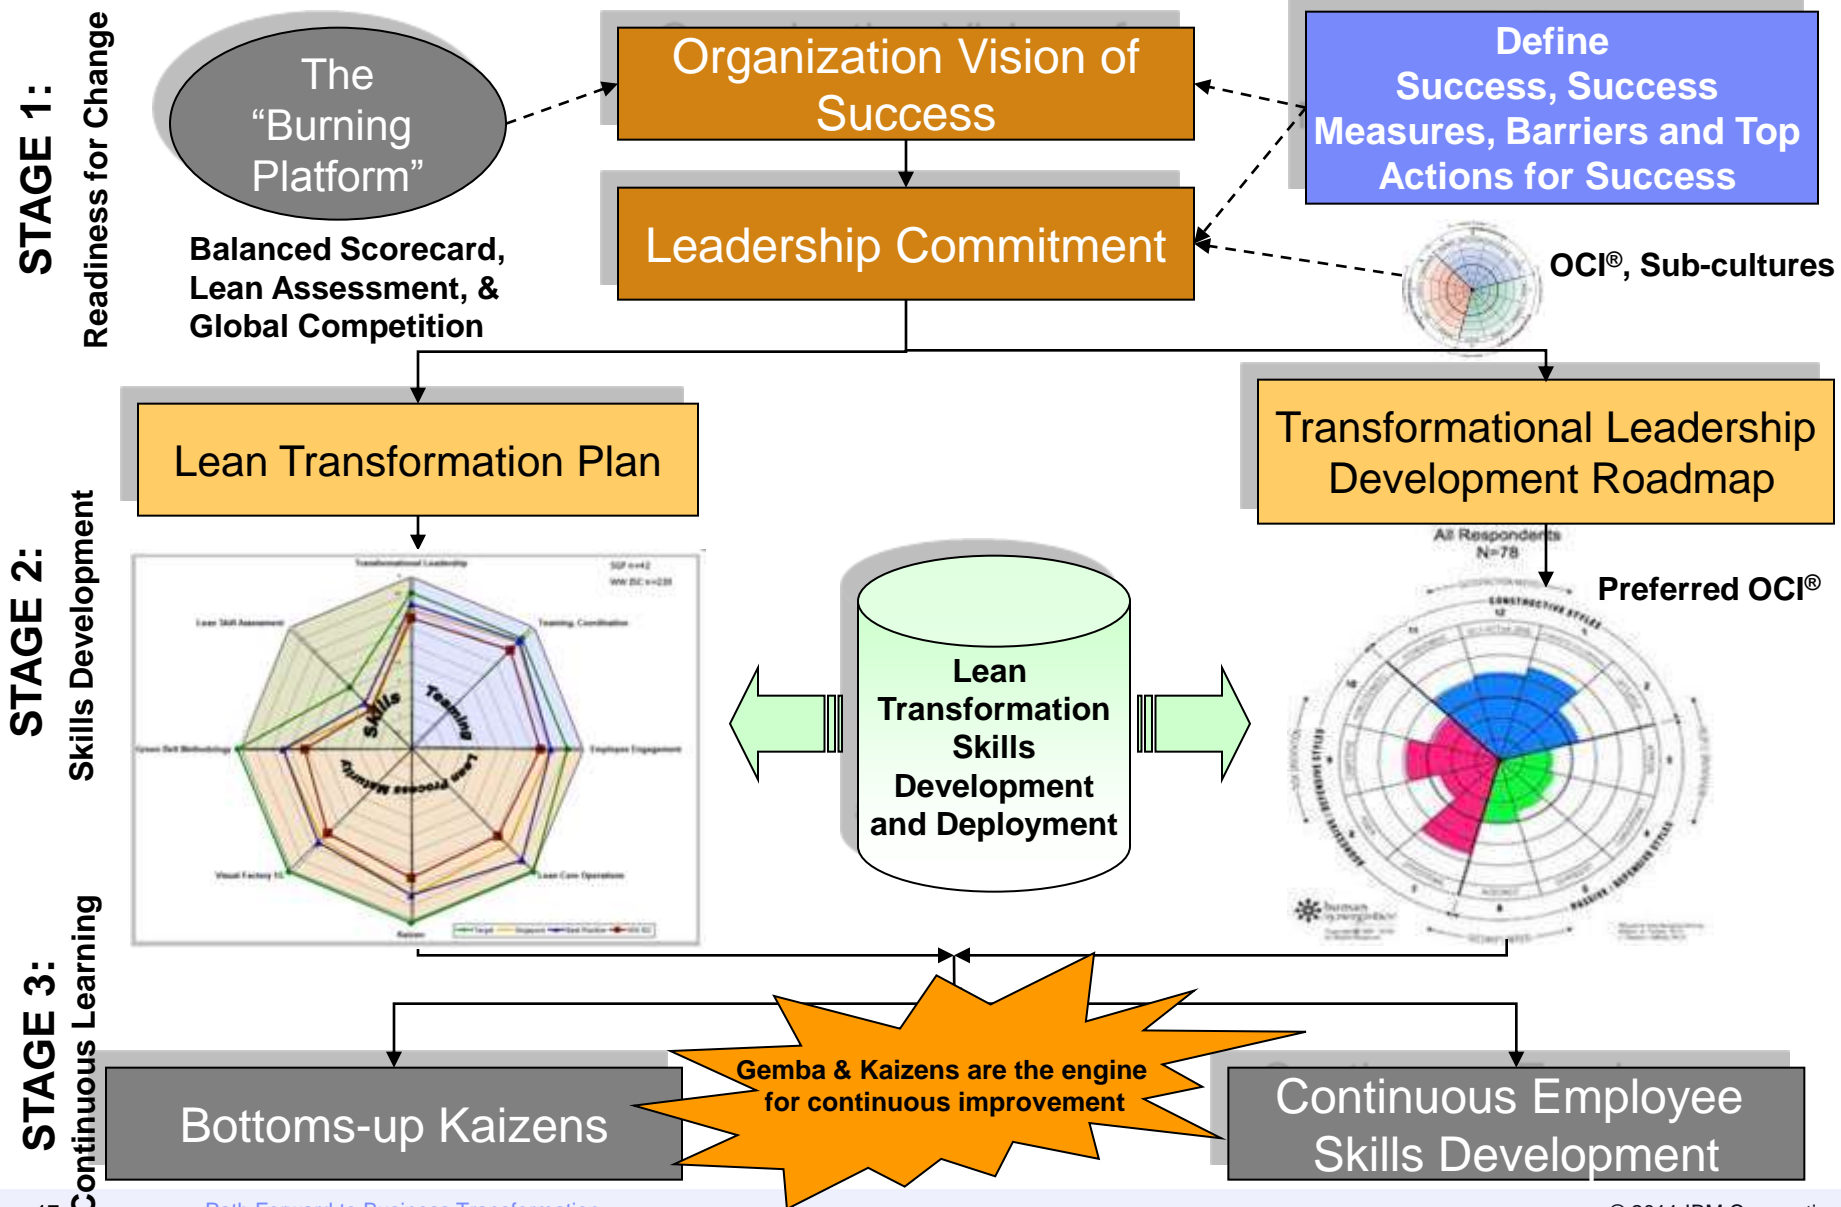

Why Focus on Process? 14 Lean Principles* and the OCI® Circumplex

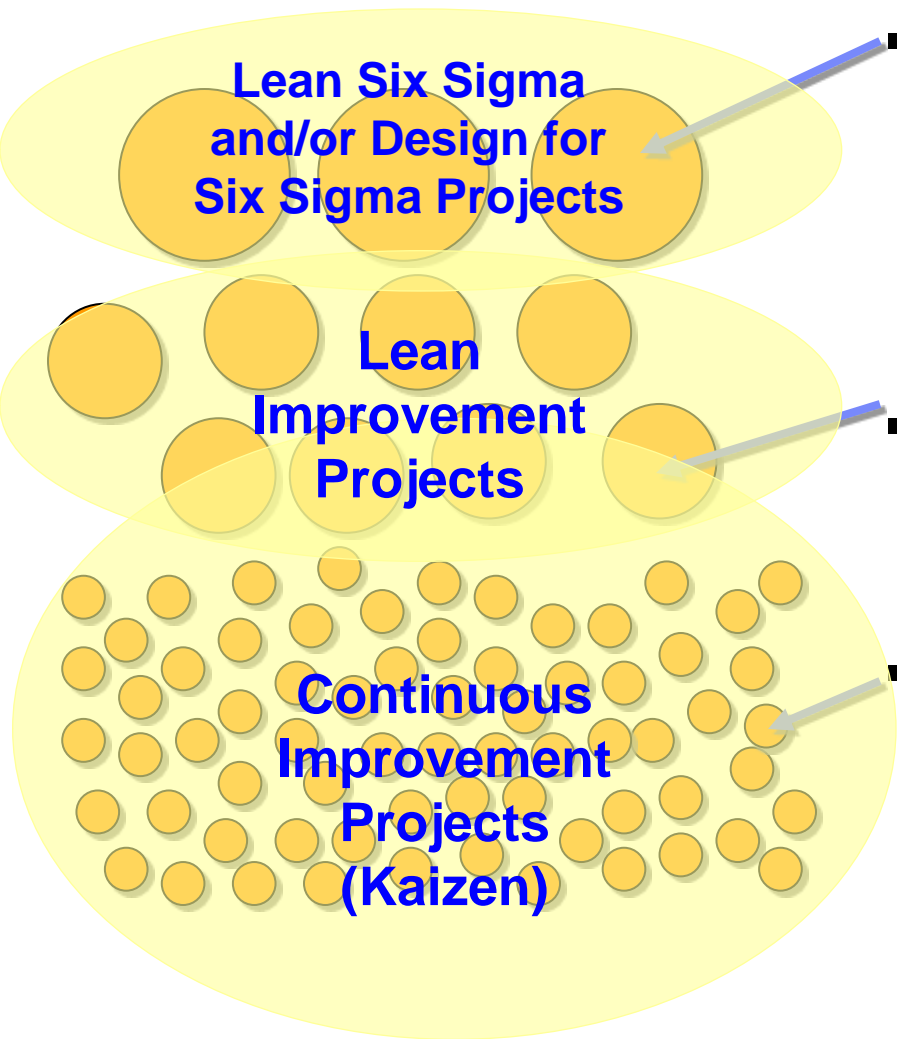

"The Toyota Way", Jeffery Liker (2004)

Path Forward Deployment Strategy

Improvement opportunities exist at all levels in the organization

■ Large Issues Improvement

- Management activity to identify strategic issues that affect the entire organization
- Broad and complex; Strategic

■ Mid-Level Improvement

- Moderate Complexity
- Cross-Functional Teams

■ Individual Level Improvement

- Pervasive use at the lowest level
- Every employee trained and encouraged to use the process.

IBM Path Forward Business Transformation – Success Story

**Assembly Plant of the Year
2008**

Cultural Performance Index - CPI	181	313	369
Financial Performance	Under Plan	Under Plan	Exceeded Plan
Inventory Management	Under Plan	Under Plan	Exceeded Plan
Quality Performance	Under Plan	Improving	Exceeded Plan
Process Maturity	Score: 2/5	Score: 3.1/5	Score 3.9/5
Leadership CPI	245	358	728
Employee Satisfaction	3.62/5.00	3.68/5.00	3.71/5.00
Kaizens/# Ideas	0/20	0/80	46/300
# Employees Trained	10 (<3%)	30 (<10%)	220 (55%)

An adaptive culture + process excellence consistently produce superior business results

Summary

- Business transformation requires an explicit focus on People, Process and Technology
- Pre-requisites for Successful Change:
 - Transformational Leadership
 - Employee Engagement
 - Direct, Open, Sensitive Communication
- Needs a systems approach – focus on cultural transformation with process excellence
 - Readiness for Change: Organizational Culture Inventory, Process Excellence Maturity
 - Employee Engagement: Kaizens, Skills Training and Recognition
 - Transformational Leadership → Focus of our second webinar
 - March 16, 2011; 2 PM EST

Thank you!
